ALLIES CAPTURE 14,000 PRISONERS

Heavy Toll Exacted by Franco-British of Kaiser's Army on Amiens Front.

150 OFFICERS ENLIST

Smash Through Lines of Enemy to Depth of Eleven Miles. Seize Much Material.

London, Aug. 9.—More than fourteen thousand German prisoners have been captured by the British and French on the Picardy front, the war office announced today.

With the British Army on the Amiens front, Aug. 9.—(1:30 p.m.)—Between 9,000 and 10,000 prisoners, including 150 officers, among them a major general and several colonels, and 150 large guns have been captured by the Franco-British forces in their new offensive against the Germans.

A vast quantity of other war material has also been taken in the terrific drive.

Smash Through Lines.
London, Aug. 9.—(1 p.m.)—British and French troops have smashed their way through the German line east of Amiens.

MRS. WATSON OF DETROIT

Was Weak, Tired All the Time—Made Perfectly Well by Vinol.

Detroit, Mich.—"I got into a weak, run-down condition, no appetite, tired all the time and headaches—but had to keep around and do my housework. I read about Vinol and tried it—within two weeks, I commenced to improve, and now have a splendid appetite and feel stronger and better in every way."

—Mrs. John E. Watson.
There is no secret about Vinol.—It owes its success in such cases to beef and cod liver peptones, iron and manganese peptones and glycerophosphates, the oldest and most famous strength creating tonics.

WORK—STUDY—PERSONALITY WINS HIM HIGH ARMY POST

(By George B. Newland.)

Washington.—Here in the hub of big affairs, where generals and admirals are as numerous as adjectives in a graduation essay, where celebrities go outdoors for elbow room—in this dazzling dictionary of military brains and achievement the name of Maj.-Gen. Hunter Liggett remains in black-face type.

The man who has just been chosen to command the first American army corps in France—next to Pershing's the biggest job in our war game—isn't readily forgotten. He has not been stationed in Washington for three years, but the memory of him is fresh.

The announcement of his elevation to actual fighting leadership at the front was not, therefore, a surprise to those who have followed the development of the army.

Never Gives Up.
The first conspicuous thing heard of him was during the early days of the Philippine insurrection. He was major of the Third battalion, Thirty-first infantry. On the way over from San Francisco the vessel carrying the troops, of whom he was in command, became helpless in a storm. It was the old tub "Immanuense," as different from modern troopships as a decrepit wooden day coach is from a steel Pullman.

After two days and nights of frantic searching the companion ship came upon the "Immanuense." She was half full of water. Soldiers standing waist-deep in brine, were pumping and bailing like fleas. And in the middle of the mess, himself soaked and bedraggled, was Liggett. They had wanted to quit, would have quit through sheer fatigue greater than fear of death itself. But Liggett wouldn't let 'em.

Two years in the hysterical islands and then it was back to America as adjutant to Gen. Carter. He was made a lieutenant-colonel and then colonel.

A little later Liggett showed up at the war college here, where he created a reputation as prodigious student of

Amiens for eleven miles at the farthest point, it was learned by the International News Service today.

Detachments of cavalry and tanks are progressing four miles in advance of the infantry.

Advices from the front this afternoon said that the allied attack is continuing today.

The nearest German line approached the allied base of Amiens is now twelve miles. This puts the city outside of efficient gun range. With the German retreat in the Champagne two of the greatest allied danger points have been removed.

Twelve Mile Penetration.
In some places British cavalry has penetrated the German lines to a maximum depth of twelve miles. Hard fighting continued all along the line today with the British still advancing.

GENERAL HUNTER LIGGETT

the technique of war. He was especially keen for the great battles of the Civil War. He entered the college in 1909 as a student officer. A year later he was director and in his third year he became president.

Still no one knew him beyond the shadow of the war college cupola. That was why the newspapers wondered a bit when, following the dispatch of Admiral Fletcher to Vera Cruz, Liggett—with a "brigadier general" fronting his name—was sent to the border. He did so well there that when he was transferred to command the western department it was as major general. And that's all of Liggett's titular ascent up to now.

He stands six feet and is as erect as a lance. He has the makings of a first-rate diplomat with his cordiality and broad knowledge. But, primarily, as an ex-subordinate said:

"He's all soldier!"

Yesterday's gain averaged seven miles over a front of 20,000 yards.

Owing to the open fighting which was largely due to the topography of the ground, the British have used the largest force of cavalry and light tanks ever employed in the war. A large number of German machine gun nests were wiped out by these forces.

In their drive against the forces of Gen. Von Hutier, the British also employed a strong force of motors on which were mounted machine guns.

Recapture Ground.

Every modern appliance of warfare was used in the initial stage of the drive.

The ground recaptured is territory taken by the Germans during March and embraces a score of villages.

The cavalry patrols alone recaptured a number of villages late yesterday. German prisoners taken expressed pleasure over their capture.

Two German divisions were being relieved when the British drive started showing that the attack was a surprise.

Some of the prisoners, however, said that an attack by the British on a smaller scale was expected four days ago, evidently prompting the recent retaking of ground captured by Australians.

The sight of British artillery clattering over the plateau and the horses being unhitched as the guns were swung into action against the Germans was inspiring.

The guns immediately would begin to send shells screaming into the German lines. They would continue to blaze away for thirty minutes when they would again be wheeled forward to new positions.

**BODY OF AMERICAN
FOUND NEAR DORMANS**

Identified as Aviator Who Disappeared July 15—Wrecked German Planes Found.

With the American Army on the Aisne-Marne front, Aug. 9.—The body of the American aviator who disappeared July 15 was found yesterday south of Dormans. It had been completely stripped of all clothing by the Germans and even its identification tag had been done away with. The body was not buried. The Americans identified the aviator by his cap, which was discovered under the wreckage of his machine nearby, and which evidently had been overlooked by the Germans.

Several wrecked German planes have been found in the past few days by the Americans in newly conquered ground. The boche had to retreat so fast he could not bury his dead.

A heavy mist and occasional showers interfered with aerial work yesterday.

**TANKS DEALT RUTHLESS
BLOW TO HUN PORTS**

Invaluable Assistance Rendered to British—Mists Handicapped Germans.

British Headquarters in France, Aug. 9.—(Reuter's Agency)—The tanks did very well today. Under cover of night a number of them were brought across the Luce brook, where they rendered invaluable assistance in what might have proved an awkward situation owing to the nature of the ground. They drove the enemy from many trench positions and machine gun nests.

The German machine gun fire was less heavy than expected, possibly owing to the mist, but the tanks seem to have dealt with the machine gun posts with ruthless thoroughness.

**SPAIN ASKS GERMANY TO
EXPLAIN U-BOAT RAIDS**

(Associated Press.)

Madrid, Thursday, Aug. 8.—Spain has addressed a new note to Germany concerning the torpedoing of Spanish ships. Foreign Minister Dato made this announcement late today after the cabinet had held an extraordinary session.

**LOYD GEORGE
JOYOUS, "WE'RE
SMASHING THROUGH."**

London, Thursday, Aug. 8.—As he was leaving London late today for Neath, to attend the Welsh national Eisteddfod, Premier Lloyd George expressed great satisfaction with the news from the front, remarking:

"We are smashing through."

NEW RECORD MADE BY AMATEUR TRAPSHOOTERS

Chicago, Aug. 9.—John D. Henry, of Elkhart, Ind., practically an unknown to the world of trapshooters, yesterday captured the grand American handi-capped, the blue ribbon race of the national trapshooting tourney, at the South Shore Country club here. Today he is victor over Henry Pendergast, of Phoenix, N. Y., whom he tied, with a score of 97. On the shoot-off at twenty targets, the newcomer won, 18 to 17.

It is said Henry, "kidded" by Elkhart friends, entered the shooting marathon. He says today the "kidding" is on the other side.

LONG-RANGE CANNON AGAIN FIRING ON PARIS REGION

Paris, Aug. 9.—The Paris region was again under bombardment today from the German long-range cannon.

TROUBLE OVER AFTER 40 YEARS

Couldn't Remember When He Had a Well Day.

Declares Tanlac Restored His Health.

Takes Trip to Baltimore and Carries His Bottle of Tanlac With Him.

"When I started on Tanlac I hadn't seen a well day since I can remember, but now I feel as well as I did forty years ago," said Samuel Lutz, residing at 603 Park street, Jacksonville, Fla.

"My liver and kidneys worried me for over forty years," he continued, "and I never felt as well and strong as other people. My back hurt most all the time. I was troubled with indigestion so bad that my stomach would swell up with gas and make me dizzy and short of breath. I was very bilious and suffered awfully with catarrh, so that I could never sleep to do any good."

"I am feeling so fine now, since I began taking Tanlac that I am going to take a trip to Baltimore, and I'm going to take my bottle of Tanlac right along with me. I never expected to find such absolute relief in any medicine as I found in Tanlac. I am now beginning to gain my weight and strength, my kidneys and liver are alright at last, my digestion is good, and I sleep like a dog. I just feel better than I have in many years."

Tanlac is sold in Chattanooga exclusively by the Live & Let Live Drug Co.—(Adv.)

COAST PILOT FOR FORTY YEARS

Mr. J. B. Mayo, of 803 East Belmont Street, Gives the Globe Tonic Demerators Fine Endorsement.

(Pensacola Journal)

Mr. J. B. Mayo, who has been a coast pilot for the last forty years, called on the Globe Tonic Remedies Wednesday to tell them about the good results he got from the three bottles of Globe Tonic which he bought. Mr. Mayo said: "I have had a bad case of stomach trouble for the last seven years the gripping pains in my stomach at times would nearly draw me double. I have suffered untold agonies from stomach trouble, and I was troubled all during the night from overactive kidneys, and another thing, before I used Globe Tonic if I cut or bruised myself it would be many weeks before it would heal, but now my blood is in fine condition because a cut or sore readily heals. I am more than pleased with the result I got from the three bottles. I firmly believe that I am entirely relieved of my former complaints."

We sell the regular \$1 size bottles for 65c and guarantee it. Samples free at 1225 Market street. (Adv.)
